M. M. JACKSON.

The Hon. Mortimer M. Jackson died at the Park hotel in Madison, on Sunday, at the age of about 80 years. Judge Jackson had been well known in Wisconsin politics for many years. He was born in New York, studied law in that state, and in 1838 settled in Milwaukee and in the year following removed to Mineral Point where he established a law business. In politics he was a whig, and became an active member of the party. When President Tyler appointed James D. Doty governor of the Wisconsin territory, the latter appointed Jackson attorney general of the territory, a position which he held nearly five years.

When Wisconsin was admitted into the Union in 1847, Mr. Jackson was elected judge for the fifth judicial circuit. Under the constitution of the state, the judges of the several circuit courts were judges of the supreme court until the legislature should otherwise provide by the formation of a separate tribunal after the expiration of five years. Upon the expiration of the term of Judge Levi Hubbell as chief justice, Judge Jackson was unanimously chosen by the justices of that court chief justice of the supreme court, and declined to serve, and Judge Edward V. Whiting was thereupon chosen. In 1853, a separate supreme court was organized by the legislature when Judge Jackson ceased to be a judge, and then began law practice in Madison. In 1856 he was the republican candidate for attorney general of the state, but was defeated by a small majority by Gabe Bruck. In 1861 he was appointed by President Lincoln consul at Halifax for twenty years he filled that position. Since his retirement from that position he had lived in Madison. Judge Jackson was a man of much ability, and was held in high esteem.

LET HIM USE THE RIFLE.

There are some students at the university that should be dismissed on the ground that they are to remain at that institution. They are a disgrace to the university and should not be allowed to remain there.

A young man from Chippewa Falls, named Riley, belongs to the freshman class, and the bullies among the sophomores entered the room in which he was staying one evening, dragged the young man out of the house, and attempted to take his hair from his head by means of a pair of tin snips shears. The terrified cries brought the neighbors to the scene, and Riley made his escape. A Madison dispatch then goes on to say: This morning (Saturday) police officers visited the campus where the students were playing ball and took Riley, the innocent cause of all the trouble into custody. A crowd of 100 or 200 students followed Riley to the station and when as many as could get in were inside, the door was locked and the police took their names for future action, an officer of the police, as upper class men of the day remember to their sorrow, Riley was then put through the pumping process and finally taken to Judge Noyes' private office, where the judge and officers labored with him all the forenoon to get him to "squeal" on his tormentors, but in vain. The police still have the matter in hand and several arrests will be made. Some expulsions are likely to follow.

Not content with inflicting this brutal treatment upon young Riley, the lawless sophomores entered the room occupied by Riley and displayed more of the same kind of lawlessness by demolishing considerable furniture. It is said that young Riley has nerve and more than that he is armed with a rifle and proposes to defend himself against the attacks of the reprobates. Young Riley will do himself credit if he shall make such a judicious use of his Winchester as will teach some of the university students a lesson which they will not soon forget. If the president and other members of the faculty cannot stop such lawless and disgraceful proceedings, then let the other course be tried—just for once—and let the law sustain it.

It will do no good to hold a pan American congress unless some practical steps be taken to establish an American steamship line between the United States and South American countries. The official map of the Argentine Republic shows, for instance, that that country has direct steam communication with England twelve times a month, with Germany twice a month, with Belgium nine times a month, with France and Portugal twelve times a month, with Spain six times and with Italy four times, but no direct communication with the United States. This is a pretty humiliating object lesson. Each one of these steamers sailing between La Plata and European ports receive a direct and remunerative subsidy. On the expectation of promise of receiving this line of which these steamers form a part were built. Without such provisions or expectation their keels would not have been laid, their intending builders would not have cared to take the risk.

So that the only practical way in which this country can match other countries in trading with Central and South America, is to do so other countries are doing. The way to establish such a trade is a very simple one.

Another calamity has overtaken the Brooklyn Tabernacle, the church of which Mr. Talmage was pastor. The fire occurred on Sunday morning at 2:15, and it is supposed that it was caused by the new electric wires. It burned like a tinder-box, and defied the skill of the firemen from the beginning. It was a splendid structure, dedicated in 1874, and cost \$150,000. Twice has the Brooklyn Tabernacle been destroyed by fire since Mr. Talmage has been its pastor; and it is a

singular fact the first was destroyed on Sunday morning also, December 23d, 1872. It was only on Saturday that the Gazette announced the supplies that would fill the famous Tabernacle's pulpit during Mr. Talmage's travels in the Holy Land. But to-day the great church and its magnificent organ are in ashes. This church burning, and the plans which it wrecks, bring to mind that wonderful sermon Mr. Talmage preached only a short time ago—"Zik'ag in Ashes!"

All good people are pained when a minister comes first best out of a bad scrape. It was charged, the readers of the Gazette will remember, that the Rev. Mr. Wharton, of Milwaukee, bought some tobacco on Sunday, and a trial was to be instituted. It now turns out that Mr. Wharton has a double, and that the double bought the tobacco. The double now lives in Minneapolis, and on hearing of the trouble and knowing that he resembles Mr. Wharton very much, and having himself bought the tobacco at the time and place named in the indictment, he has written the minister, saying that if the case is ever brought up again he will go to Milwaukee and show that it was not Mr. Wharton who bought the tobacco.

It is very funny, notwithstanding its ridiculousness, to read Mr. George William Curtis' ideas of civil service. He said Mr. Cleveland's administration gave civil service reformers hope. Hope of what? Mr. Cleveland, put over 72,000 democrats in office. Was that the way to reform the service? President Harrison will be kept exceedingly busy if he shall succeed in putting in office as many republicans as Cleveland did democrats.

Here is an item worthy of attention from the Union Signal: "John Wamaker and Marshall Field are quoted as the great merchant princes who never advertise in Sunday papers. Both decline Sunday advertising on the ground of principle, and the question, 'Does it pay?' seems not to enter into the matter, but something seems to pay in these great firms, nevertheless."

THE NEWS IN BRIEF.

SENATOR VEST OF MISSOURI is seriously ill.

The financial situation in New York is reported as greatly improved.

ELECTRIC light companies in New York city have secured an injunction restraining Mayor Grant from interfering with their wires.

Mrs. LOUISE ERNET, a woman of thirty-five, sprang from the St. Louis bridge into the river, a distance of 118 feet, without injury to herself.

ARCHBISHOP CORRIGAN has issued a pastoral letter in which he roundly denounces the Italian government for restricting the pope's freedom of action.

PRESIDENT HARRISON has appointed ex-Congressman Findlay of Maryland, who is a Democrat, a member of the Venezuelan commission.

STENOGRAPHIC efforts will be made to have the long and short haul features of the inter-State commission law amended at the approaching session of Congress.

WARRS are out to recover bonds transferred by State Treasurer Burke, of New Orleans, to his relatives. With the bonds deducted from Burke's deficit he is still \$400,000 short.

A supposed flaw has been found in the vote of North Dakota which, if sustained by the courts, would defeat prohibition in that State.

The City of New York has reached her dock unharmed by her encounter with a mud bank.

JUDGE MORTIMER M. JACKSON, consul at Halifax from 1861 to 1882, died at his home in Madison, Wis.

Mrs. MARY BARNETT, the deserted wife of "Flory" Barnett, the boxer, and Daniel Murphy were found asphyxiated by gas in the Harlem hospital yesterday. They had been drinking and had blown out the gas.

A GREAT CHURCH BURNED.

THE BROOKLYN TABERNALE DESTROYED BY FIRE.

Only the Ruined Walls Mark the Spot of Dr. Talmage's Efforts—The Casualty Record.

New York, Oct. 14.—The famous Brooklyn Tabernacle, of which the Rev. T. DeWitt Talmage, D. D., is pastor, was Sunday, for the second time in its history, totally destroyed by fire. At 2:15 o'clock Saturday morning a policeman discovered flames issuing from one of small windows over the main entrance, and, rushing to the nearest signal-box, sent in an alarm. The firemen found the fire had assumed large proportions, and additional alarms, calling all available apparatus, were at once sent in. It became evident that the edifice was doomed to destruction. It burned like a tinder box, and the fireman, despairing of saving it, directed their efforts to the adjoining property. Many of the occupants of the neighboring dwellings were already awake, and the police proceeded to arouse those who were sleeping. The three-story frame structure at 353 Shermerhorn street, adjoining the church, was already on fire. The fire took place, and 355, a similar structure, followed; 357 was also damaged.

On the west side of the church the flames extended to two brick buildings, and on the opposite side of Schermerhorn street a row of three-story brick dwellings, 358 to 348, suffered from the intense heat. Window glass was broken and woodwork scorched. The residents of the neighborhood, awakened either by the roar of the flames or by the pounding of the police upon their doors, became frightened and rushed out half-dressed and in their night clothes, and the police had great difficulty in assuring them that they were in no danger. Fortunately there was no loss of life or limb. The police carried out one old lady from 387 Schermerhorn street and placed her in a house at a safe distance. All the inmates were able to care for themselves.

But while the firemen and the police worked for the salvation of property and the people, the doomed building was rapidly being consumed and in an hour's time only tottering walls remained. Dr. Talmage was on the scene soon after the first alarm and did not leave until he had seen the edifice which had been his pride laid in ashes.

The origin of the fire is unknown, but it is thought that it may have been caused by lightning.

The loss on the church building, including the organ, which was one of the finest in the country, is \$150,000. It is said to have been covered by insurance companies. The building was in a number of companies. The building was a number of companies. The building was a number of companies.

A TOWN BURNED.

Serpent River, Ontario, Nearly Wiped Out by Fire.

SAULT STE. MARIE, Ont. 14.—Fire broke out in Cook's lumber yard at Serpent River, Ont., ninety miles from here Saturday afternoon. A heavy northwest wind blowing over the flames to the docks and warehouses of this extensive firm and at 6 p. m. the whole town was there. There were forty buildings in the town, general stores and dwelling houses. At 8 o'clock Sunday morning, when the fire was extinguished, not more than a dozen buildings remained. The structures burned were mostly small and \$300,000 will cover the entire loss.

A special train with engines and hose was sent from this city, but arrived too late to render much service. Over 200 persons are left homeless.

THREE CRUSHED TO DEATH.

A Shocking Accident Caused by the Collapse of a Steam Derrick.

LANSING, Mich., Oct. 14.—Three men were killed and several injured by the iron hoisting beam of a steam derrick falling upon them while engaged in clearing up a freight train wreck near here Sunday. The men killed were Conductor Peter Quinn of West Bay City, brakeman John Tantillivich of Bay City, and Machinist George Ruby of Jackson. All were employees of the Michigan Central railroad.

FIRE AT HORTON, PA.

Fifteen Million Feet of Lumber Destroyed—The Flames Still Raging.

BROCKWAYVILLE, Pa., Oct. 14.—Early this morning a fire broke out in the board yard at H. E. Cartwright's mill at Horton City. Fifteen million feet of lumber have been destroyed. The mill is threatened and the fire still rages. The loss so far is \$75,000, falling on Quinn West Bay City, and the Ridgeway Lumber company. The insurance is small.

Struck by a Lake Shore Train.

FRANKLIN, Pa., Oct. 14.—J. C. Davidson and his 10-year-old daughter were struck by a Lake Shore train as they were driving across the track at a crossing and so terribly injured that they will probably die. The horse was killed and the wagon was reduced to kindling wood. At the point where the accident occurred the Lake Shore road runs parallel with that of the Erie. Mr. Davidson saw a train approaching on the latter road track and drove his horse and daughter across the tracks. He failed to observe the Lake Shore train coming until it was too late to escape.

Fatal Crash on the Big Four.

CINCINNATI, O., Oct. 14.—A Big Four west-bound freight collided with an east-bound wrecking train at Rapid Run last night. Fireman Edward Morris and a wrecking train was killed; the body of J. Daniels, head brakeman of the freight, was found dead and badly mutilated in the wreck, and John Whetstone was seriously hurt. Engineer Green of the wrecking train mistook his orders.

Scaled to Death in a Boiling Vat.

HERRINGTON, Kan., Oct. 14.—The 9-year-old daughter of C. G. Brown, who lives four miles south of this city, fell into a boiling vat of sorghum last night and was terribly scalded. The child's skin peeled off with the syrup and she died in great agony.

TRAIN ROBBERS BALKED.

One Member of an Indiana Gang Caught and Lodged in Jail.

VINCENNES, Ind., Oct. 14.—A bold attempt to rob the Ohio and Mississippi passenger train No. 6 due here at 1:30 a. m., was frustrated Sunday morning by the trainmen, between Bridgeport and Lawrenceville, Ill. An unknown man was discovered in the act of pulling the coupling pin from the rear coach. The intention of the robber was to disconnect the last coach from the train and with four or five accomplices, who were on top of the car at the time, attempt to rob the passengers at some lonely spot on the road. The robber caught in the act of pulling the pin feigned drunkenness. He, however, was taken through here to Washington and lodged in jail. His "pals," who first boarded the train near Ohio, escaped.

A Kansas Loan Agent Missing.

WICHITA, Kan., Oct. 14.—It became known to-day that T. M. Giblin, of Pratt, a town fifty miles west of here, and connected with the loan and investing company of Giblin, Brownell & Co., had absconded. He is supposed to have taken \$10,000 with him. He left home on the 5th inst., claiming he intended to go to Colorado to attend to some business, and has not since been heard from. His partner looked over the books and found the deficit. Giblin moved to Pratt from Peoria, Ill., nine years ago, and at the time of leaving was police judge. He has also been county attorney.

Pan-American Delegates at Niagara.

NAGARA FALLS, N. Y., Oct. 14.—The Pan-American delegates arrived here at 9:30 Saturday night. Sunday was spent in driving about the falls and in a trip on the Maid of the Mist to the foot of the cataract. At 6 o'clock the delegates were driven to the Clifton house, where a banquet was given in honor of the guests by the Hon. Erastus Winan. Many informal speeches were made, and at a late hour the party returned to their quarters at the Cataract house. They left for Buffalo early Monday morning.

Johnstown Fears an Epidemic.

JOHNSTOWN, Pa., Oct. 14.—A great many cases of diphtheria and other diseases are being developed in the devastated region and the physicians fear an epidemic of diseases the coming winter. The movement to collect money by popular subscription to continue the work of cleaning out the rivers is growing, and it is quite likely that a considerable fund will be raised. The necessity of this work has never been more apparent than since they have been at work in the rivers, as from one to four bodies have been found daily.

AS BY A MIRACLE.

Wonderful Escape from Death of Passengers on a Derailment.

RAHWAY, N. J., Oct. 14.—The fast Philadelphia express on the Pennsylvania rail, composed of two combination parlor cars and three coaches, passed the main depot here this morning, running at the rate of sixty miles an hour. The engine, just as it reached the east end of the long bridge, jumped the track and was followed by the three cars. The crash was so sudden that the passengers were thrown and the whole train left the track in a different direction, tearing up the rails and ties and digging into the stone ballast roadbed. There are four tracks at this point and the cars were twisted around in such a way as to completely wreck the road bed and the cars themselves. When the cars finally stopped, the passengers, who were naturally badly frightened, came out of the wrecked cars unable to comprehend what had happened. The only persons injured were two women who were cut by flying glass. One woman was a passenger on the train and received a severe shaking up, as did all of the passengers. The accident was due to the spreading of the rails, which were new, and it is said, had not been properly spiked by the section men who laid them.

Dyspepsia

Makes many lives miserable, and often leads to self destruction. Distress after eating, sick headache, heartburn, sour stomach, nervous depression, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the mind, and cures the most obstinate cases of dyspepsia. Read the following:

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a flatulency or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that fast, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." G. A. PAGE, Watertown, Mass. N. B. Be sure to get only

DRUG BUSINESS
or the Quigley Habit. Positively Cures
by administering Dr. Haines'
Golden Specific.

It can be given in a cup of coffee or tea or in a glass of water. The bitter odor of the patent is absolutely harmless, and it will effect a permanent cure, whether the patient is a moderate drinker, a socialistic brewer, or an inveterate drunkard. It NEVER PAINS the stomach, and it never causes any of those violent spasms which have been known to follow the use of other remedies. It is a safe, reliable, and sure remedy, and it will cure every case of Quigley Habit. It is a safe, reliable, and sure remedy, and it will cure every case of Quigley Habit.
